8:15 p.m. DRAWING

- At the 1st drawing at 8:15 p.m. each night, ten (10) entries will be drawn at every Station Casino and Fiesta.

- Winners will each receive \$250.00 cash and will have twenty-four (24) hours to claim their prize at the Main Casino Cage.
- Winners that are present within three (3) minutes and claim their prize with a drawing official within three (3) minutes from the last drawing number announced will have the opportunity to play the High/Low Game Show.
 - Once present winners have been verified, the promotion will proceed and the winners who are present will play the High/Low Game in drawing awarded order.
 - A Station Casino Representative will place eight (8) cards from a pre-shuffled deck of fifty-two (52) cards face down on the game board. The representative will then start the High/Low Game by flipping over the first card. The winner must then guess whether the next card drawn will be higher or lower than the first card turned over. The guest may also call a push.
 - Each card represents a cash value. The possibility to win more than \$250 is determined by the willingness of the guest to turn more cards over. Each card is turned up and placed on the promotion board. If the player is correct eight (8) times in a row, they will receive the top prize of \$7,500.00. The maximum of cards flipped is eight (8).
 - At any time a player can halt the game and not continue to move forward and receive the prize value of the last correct guess.
 - If the player gets less than eight (8) correct guesses in a row, they will receive the cash value of card one (1) of \$250.00. The next winner will begin and the game will start over with a new pre-shuffled deck of fifty-two (52) cards.
- If a push occurs, guest will lose. For example, if the Station Casinos Representative flips a card and the next card flipped is the same number, the player loses, unless the player called a push.
- Ace card is considered a high card.
- Prize Payout is as follows:
 - Card One (1) = \$250.00 (Guaranteed)
 - Card Two (2) = \$500.00
 - Card Three (3) = \$750.00
 - Card Four (4) = \$1,000.00
 - Card Five (5) = \$2,000.00
